The Nevada Irrigation District Board of Directors will hold a special meeting Oct. 9 to consider stopping all work on the Centennial Water Supply Project.

The meeting, set for 6 p.m. at the Grass Valley Veterans Memorial Building, 255 S. Auburn St., Grass Valley, will focus on a request from the South Yuba River Citizens League. SYRCL has asked that NID stop work on the Centennial Dam, a controversial project that's drawn sharp criticism.

NID also will examine suspending a resolution that authorizes diversion, storage and use of water from the Bear River.
